

LimoVox Softphone Setup

Step 1 - Download the free softphone app.

iPhone - <https://appsto.re/us/z1V0H.i>

Android - <https://play.google.com/store/apps/details?id=cz.acrobits.softphone.cloudphone>

Step 2 - Open the app and press "Scan QR"

Scan QR Code:

Step 3 - Enter the following settings within the app

(Account 1)

Username: (Check email)
Password: (Check email)
Instance: (Check email) ("l" is a lower case "L" in call instances)

=== Additional Setup Instruction (once soft phone is enabled) ===

- Select "settings"
- Select "preferences"
- Select "controls"
- Change "On GSM Call" to "Do Nothing" (This allows a user to be on a VoIP call while still receiving a call via the cellular network)

For assistance, please do not hesitate to contact us at support@semperon.com and someone will help with the set-up and any further questions regarding features and capabilities.
